de.NBI — GERMAN NETWORK FOR BIOINFORMATICS INFRASTRUCTURE

Training Course

deSTAIR

A Primer for RNA-Seq Processing, Interpreting and Visualization

RNA-Seq data analysis
Workflow development

Introduction to Galaxy
RNA-workbench

Functional RNA analyses
Visualization concepts

Fundamental statistics
Basic file formats

Practical examples
Unix how-to

4th – 6th October   2017

Where?
Who should come?
How to apply?
What are the costs?
Contact:

University of Freiburg (RBC)
Highly motivated experimentalists
destair.bioinf.uni-leipzig.de
120€, incl. materials and meals
destair@bioinf.uni-leipzig.de

The training is provided and supported by:

Universität Rostock — Traditio et Innovatio

UNIVERSITÄT LEIPZIG
Galaxy project - Uni Freiburg

UNI FREIBURG

RBC — RNA Bioinformatics Center
